

Tips for enjoying your webinar experience

OPTIMIZE YOUR CONNECTION

While wifi will work well in most cases, using an **ethernet cable** will provide the fastest and most stable internet connection. If you encounter problems with your wifi, connect an ethernet cable!

HOW TO INTERACT

- Ask questions using the **Q&A** feature!
- Make comments or talk with each other using **CHAT**.

SET UP A WEBINAR ZONE

- Set up a comfortable, well-lit area to view the webinar.
- Have coffee and snacks ready!
- Consider a notebook for taking notes, or open a word doc.

[Click here](#) to familiarize yourself with using Zoom Webinars.

CAMERA SHY? NO PROBLEM

Your microphone and camera will automatically be turned **OFF** when you enter the webinar. This means you'll be able to hear the speakers, but the other webinar attendees will not hear you.

PREP YOUR COMPUTER

Be sure you have downloaded the [latest version of Zoom](#) to your desktop or tablet. Be sure **pop-up blockers** won't prevent you from opening the webinar!

THANK YOU FOR BEING FLEXIBLE!

We know COVID has complicated life for most everyone. We're grateful to our speakers and sponsors for supporting our webinars and **grateful to YOU** for joining us!
